These photographs may be used in school and diocesan publications, newsletters, media releases, and school and Catholic Education Office websites. If for any reason parents do not want a photo of their child included, they should let the school know.

Please contact the Principal's secretary if you have any concerns.

## Learning At St Agnes

#### **Homework Policy**

The Homework Policy has its foundation in the Teaching and Learning Policy, which acknowledges that all members of the community are engaged in lifelong learning. Integral to the understanding of this policy is the belief that all students have gifts and talents and are capable of learning. Learning occurs at different rates and in different ways, and occurs best where the student, home and school have a common goal.

#### Rationale

Effective homework engenders in students a growing confidence in their capacity to learn and, therefore, is not set for its own sake. It allows students to practise and consolidate work done in class and to develop the key competencies of collecting, analysing and organising information. Homework provides an avenue for students to reinforce skills and to develop effective time management skills. It also provides parents with insights into what is being taught in the classroom and the progress of their children. Parents are encouraged to be supportive of their child's learning by taking an active interest in their progress. Homework endeavours to support the needs of all students and is a direct link to the learning program at school.

#### **Types of Homework**

Homework may consist of:

- practical exercises providing students with the opportunities to review, revise and reinforce newly acquired skills and knowledge. Examples include:
  - consolidation exercises
  - practising for mastery
  - revising for in-class assessments or examinations
  - revising information about a current topic
  - reading for pleasure
  - essay writing
  - o completing formal assessment tasks and other assignments
- preparatory homework providing opportunities for students to gain background information on a unit of study so they are better prepared for future lessons. Examples include:
  - background reading
  - reading of prescribed texts
  - researching topics for a class unit of work
  - collecting items
- extension assignments, which encourage students to pursue knowledge individually, and imaginatively. Examples include:
  - writing
  - making, creating or designing
  - investigating
  - researching
  - information and retrieval skills
  - monitoring of documents, e.g. newspapers

Research indicates that regularly revising new concepts and skills learnt in class is far more beneficial than attempting to revise only at the end of units.

The amount of homework will increase as students progress through their schooling. Coordination of homework across faculties is important to alleviate the stress placed on students with the competing demands in regard to assessment tasks, examination preparation, and consolidation of new work learnt in class.

Students are encouraged to accept responsibility for their own learning and to further develop independent learning.

As a guide, the homework schedule for each year level is:

- Year 7 & 8 should, on average, be no more than 10-15 minutes per subject on the day they have those lessons
- Years 9 & 10 should, on average, be no more than 15-20 minutes per course on the day they have those lessons

Students are expected to work with their teachers to ensure that the homework that is set is completed to the best of their ability within a reasonable time frame. Teachers should follow through on homework so students' work can be affirmed, areas of difficulty identified and support offered, where necessary.

When appropriate, teachers ensure that students write their homework in their student diary. Parents are requested to check and sign this homework weekly and are encouraged to monitor the homework for their children in all their subjects.

If a student does not complete the requested homework then appropriate action is taken to investigate the reason. This will, in the first instance, be managed by the classroom teacher. If homework is not completed on a regular basis then the classroom teacher will advise the Stage coordinator and Learning & Teaching coordinator where further investigation will be conducted. Students are expected to balance their homework time with home obligations and leisure activities.

#### **Expectations For Sport**

#### **Student Behaviour**

Students are expected to follow the directions of teachers, teacher's aides, venue staff and instructors at all times, and to participate in their sport activities to the best of their ability. - If an appeal is to be lodged, the Sport Coordinator must direct it to the Disputes Committee within 24 hours.
- Players must use appropriate language and behaviour when speaking to the referee, umpire, officials, opponents, or each other on and off the field. Offensive language and/or behaviour will not be tolerated and will lead to dismissal.

#### **Road Safety Policy**

At St Agnes Catholic High School we believe that a road safety policy provides a framework of common understanding for students, staff, parents/carers, and the community who interact with the school to provide a safe environment. Our Catholic School is founded on the person of Jesus Christ and is committed to educate in Gospel values - especially in hope, love, justice, and care for others in the community. The main intention of this policy is to ensure the health, safety and welfare of our students who use the services and facilities of this school. We do this by assessing the risks in the road environment around our school, developing practical school management procedures and ensuring that curriculum pertaining to all road safety issues is taught to our students.

#### **Environmental Statement**

St Agnes is located on Evans Road in Rooty Hill. It is situated in a residential area with a high traffic flow. The majority of students catch a bus to and from school, or are dropped off by private transport. Street parking is limited in the area; this may result in traffic congestion. The school's bus stop is located at the front of the school. St Agnes has no separated bus bay or drive through for the local bus company to use. The buses pull into the curb.

#### **Aims/Goals**

At St Agnes Catholic High School we aim:

- to provide a quality road safety education program that develops responsible road use, attitudes and behaviours
- to provide management procedures that aim to maximise student safety and the wellbeing, health, and safety of all
- to encourage the education of road safety issues in the wider school community, e.g. parents/carers, staff and visitors.

#### **Curriculum Statement**

At St Agnes Catholic High School our staff have developed and implemented an effective, sequential road safety education program within:

- the Years 7-10 PDHPE programs
- the information section within the school's newsletter

Our programs make use of current NSW Roads and Traffic Authority (RTA) resources and address the following road safety issues for our students:

- passenger safety
- pedestrian safety
- safety on wheels (such as bicycles, scooters, roller-blades and skateboards)
- driver education.

When appropriate, we will make use of other suitable resources and incorporate them as part of an ongoing program. The use of additional resources should enhance the teaching and learning of road safety education to our students.

#### **School Management Procedures**

At St Agnes Catholic High School the staff will maximise the safety of students by:

- ensuring no less than 2 staff members (including a member of the school leadership team) is on duty at the front of the school
- ensuring no less than 3 staff members are on bus duty during the afternoon
- students who catch the bus are assembled in the designated areas before moving to their bus
- students behave appropriately and respectfully when leaving the school and when catching public transport
- investigating and acting on any inappropriate behaviour reported to the school by the staff, students and parents of the St Agnes community, members of the public and operators of any bus company associated with the school providing active supervision when students are catching public transport for excursions, camps or retreats

Members of the St Agnes Catholic High School community are regularly informed of the importance of:

- modelling safe road user behaviour
- parking vehicles safely outside the school and observing all parking signs
- ensuring that students are protected whilst traveling to and from school
- reinforcing the safety messages taught at school
- identifying and reporting safety issues in and around the school
- contributing to solving road safety issues that are of concern to the school and community

#### **Discretionary Basis**

The Principal has the right of discretion to make provision for departure from the policy or the application of the policy in the event of unforeseen and exceptional circumstances.

This policy was prepared by the WHS Committee and Executive of St Agnes Catholic High School.

#### Sickness

If a student is ill he/she should not attend school.

If students become ill during the day, they are to seek permission from their class teacher to see the first aid person at the Student Administration Office. The first aid person will contact parents to collect their child if required students are not allowed to make this contact.

Sickbay is only used for students in transit to home. If the student needs to leave school he/she is required to be taken home and signed out by a parent or guardian.

#### **Telephone**

If students have to make an emergency call, they are to see the Student Administration Secretary who will arrange this for them. Mobile phones cannot be used at school.

Mobile phones will be confiscated in the following cases:

- If students have them out during school hours
- If students use them during school hours
- If an incoming call is received during school hours.

#### **Visitors To The School**

In line with child protection laws, the school has a Visitors Policy. All visitors to the school must report to the administration office prior to entering the school grounds. All visitors will be issued a **Visitor's Badge** which must be worn at all times. When leaving the school visitors must also sign out.

This procedure means that school staff are aware at all times of who is on the school grounds.
